

Z6

Digital Ultrasonic Diagnostic Imaging System

quality | speed | flexibility

Z6

Digital Ultrasonic Diagnostic Imaging System

The Z6 portable Color Doppler ultrasound system is an excellent choice that brings features from traditional color Doppler ultrasound systems in a compact design. Mindray has accomplished this with economics in mind.

Inherited from our remarkable design and success, the Z6 system will offer you amazing image quality and functionality with a refreshing experience.

OB imaging – triplets

Mammary cyst

Liver imaging

Evaluating patients in today's demanding environment takes innovative technology to speed up diagnosis with greater confidence. Mindray's Z6 versatility expands your clinical utility while improving patient care.

Diagnostic confidence with advanced imaging technologies

- Dynamic Beam Forming
- iBeam™ Spatial Compounding Imaging
- iClear™ Speckle Reduction Imaging
- (PSHI) Tissue Harmonic Imaging
- (TSI) Tissue Specific Imaging
- B Steer, Trapezoid Imaging, Colorization
- iScape, panoramic view

Exceptional ergonomics and high productivity by design

Designed with the user in mind, the Z6 makes any location accessible.

- A smart new shape for enhanced mobility that is compact and lightweight
- Lightweight and durable transducers for multi modality imaging
- Quick Save One push image transfer to local or directly to USB
- iTouch™ Auto Optimization: single button image optimization
- iZoom™: enables accurate viewing of image from distance
- iStation™: clipboard, onboard reporting
- IMT: auto-measurement of carotid intima thickness
- 15" high definition LCD, tilt display
- Backlit control panel
- Li-ion battery

Smart Workflow

With powerful user-defined presets, auto image optimization and patient information management system, Z6 makes it fast and easy to complete exams. Furthermore, Z6 provides onboard reporting and DICOM 3.0 which will greatly improve your workflow without any compromise in diagnosis accuracy.

Compact and lightweight for enhanced mobility
