# **U60**

Diagnostic Ultrasound System

Clear, Compact, Comprehensive

## U60 Diagnostic Ultrasound System

With its compact design, user-friendly operation and advanced imaging technologies, the U60 diagnostic ultrasound system offers a broad range of clinical applications to address all of your imaging needs.

#### Compact Design

- · Compact, lightweight design facilitates mobility
- · Integrated battery enables operation anywhere
- Large 15" monitor for easy viewing

#### Comprehensive Clinical Applications

• Full set of transducers to support all applications

#### Advanced Imaging Technologies

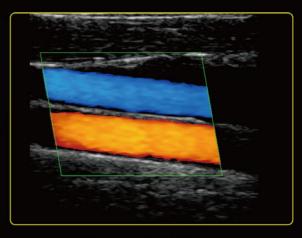

- Tissue Harmonic Imaging
- Spatial Compounding Imaging
- Speckle Reduction Imaging

### User-Friendly Operation

- Backlit, easy-to-use control panel
- Customizable user defined controls
- Large capacity data storage

## Excellent Image Quality

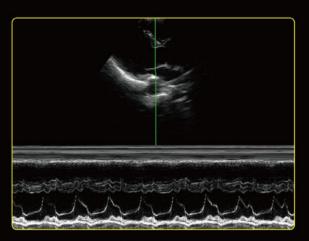

The U60 provides excellent detail, contrast resolution and image uniformity without sacrificing penetration. Excellent color and Doppler sensitivity easily detects small, low flow vessels.

Common Carotid Artery

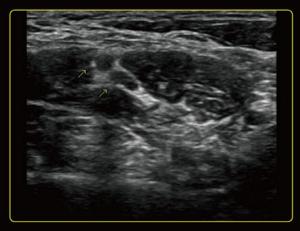

Right Hepatic Vein

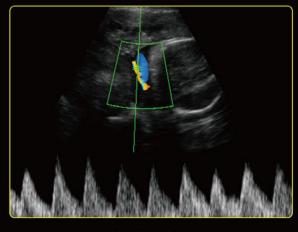

Mitral Valve

Renal Vascularity

Interscalene Brachial Plexus

Umbilical Artery
