MX3

Diagnostic Ultrasound System

Essential Imaging. Exceptional Value.

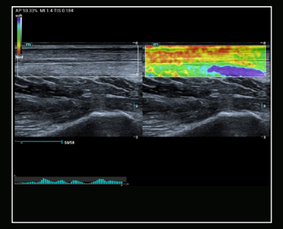

Meet the MX3 Ultrasound System.

Joining the Mindray MX-Series, the MX3 meets the core needs of healthcare facilities with strong performance, easy portability, and exceptional clinical value. Its intuitive interface fits seamlessly into your daily routine, enabling you to spend less time navigating technology and more time delivering the confident, compassionate care your patients deserve. From routine assessments to managing high patient volume, the MX3 offers clear, dependable imaging that empowers you and your team to raise the standard of care for every patient.

Powered by Mindray's revolutionary ZONE Sonography® Technology+ (ZST+), the MX3 System boasts capabilities that provide a harmonic balance of resolution and tissue uniformity. The MX3 utilizes innovative image processing algorithms and cutting-edge probe technology to deliver clear images with less scanning time, providing precise diagnosis.

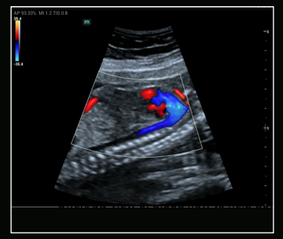

Confident in Diverse Applications

Small Parts

Natural Touch Elastography (NTE): Non-invasive method for assessing focal lesions in organs such as liver, thyroid, and breast

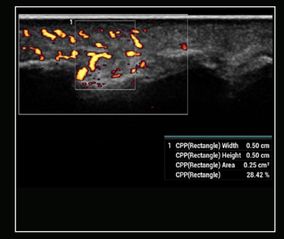

Vascular

Glazing Flow: Blood flow imaging technology that provides dynamic, 3D visualization of complex flow patterns

OB/GYN

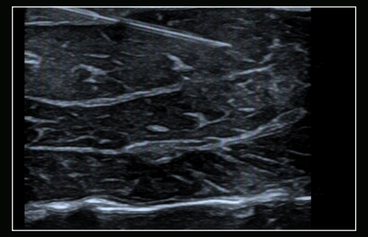

3D/4D: Clear and more detailed structural images providing exceptional visualization of fetal anatomy

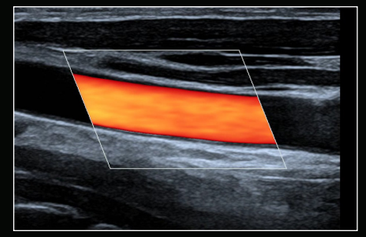

MSK

CPP: Auto-calculation of color pixel percentage within region of interest. Helpful in evaluating rheumatoid arthritis

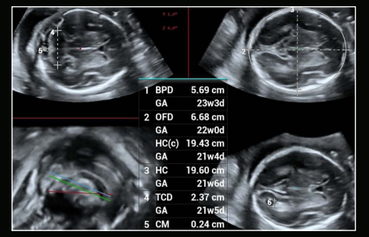

Clinical Gallery

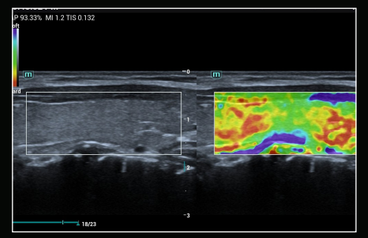

iNeedle Enhancement

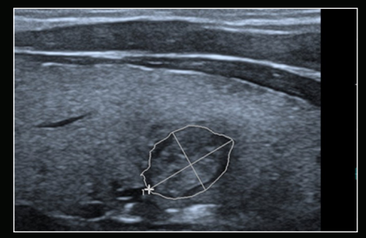

Color Doppler Common Carotid Artery

Smart OB Auto Measurements

Natural Touch Elastography

Smart Calc Tracing

Kidney with Glazing Flow

Built for Clinical Confidence

Featuring:

1. 15.6″ HD display with automatic brightness adjustment for optimal image visibility and reducing eye strain
2. Fully sealed control panel minimizes debris accumulation and facilitates thorough disinfection
3. Magnetic Charging and optional all day battery solution. 90 minutes continuous scanning when fully charged
4. 185° wide tilt angle accommodates users of varying heights while promoting ergonomic comfort and safety

Peace of Mind Protection

The Industry's Best Investment Protection

Living Technology

Living Technology™ is a continually evolving software-based approach to providing our customers with easily upgradeable enhancements made possible by our core imaging technologies. These upgrades secure product investment protection by ensuring that Mindray Ultrasound Systems remain at the cutting-edge of imaging performance throughout their entire life cycle.

Standard warranty* includes:

Five years of coverage for:

- Main system and parts, and technical phone support Monday–Friday, 8 am–8 pm ET (excluding U.S. holidays)
- Standard transducers (normal wear and failure)
- Software performance updates with Living Technology

One year of coverage for:

- Specialty transducers including, but not limited to TEE transducers

* Warranties for systems purchased from Mindray authorized agents can vary.
